Training and Development Director

2f d ^ _A2013

An organisation's greatest asset is the people who work for it. That's why training and workforce development are so important, to make sure staff are as good as they can be and provide clients the best service possible.

With the updated DDN Training and Development Directory we have tried to make it as easy as possible to find the right trainer for you. Trainers are listed alphabetically with their websites, contact details and the areas that they specialise in. All details have been checked by the DDN team to make this update as accurate as possible.

We have also provided the opportunity for trainers to take out advanced listings to better explain the services they offer, and display advertising to fully promote their whole range of training. We are grateful to the organisations that have taken up these options – without their support we would be unable to fund the production of this free resource.

If you provide training in the substance misuse field and would like to promote your services in DDN, please contact me for more information.

Kind regards, *Ian Ralph*

Adfam

Adfam is the national umbrella organisation working to improve the quality of life for families affected by drug and alcohol use.

We have nearly 30 years' experience developing and delivering training and driving forward good policy and practice. Our aim is to equip professionals across all sectors who work with or come into contact with families, with the knowledge and skills they need to recognise family members affected by someone else's substance misuse and to feel confident in providing or sign-posting to appropriate support.

Our courses have been delivered to people across a range of sectors including those working in family support services, treatment services, schools, healthcare, children's and adult services and criminal justice settings.

We offer courses at entry level as well as more in-depth courses to ensure that you feel equipped and confident to tackle issues you may come across in your daily work and to help ensure that family members are always in the picture.

All of our courses are also written to match to a range of National Occupational Standards, allowing you to build on your own professional development.

View our courses at www.adfam.org.uk/training for more information and detailed learning outcomes. Courses can also be commissioned to suit your training needs, email – training@adfam.org.uk or call 020 7553 7640.

Alcohol Concern

Alcohol Concern
The charity making sense of alcohol

Alcohol Concern is the leading national charity working on alcohol issues. Our goal is to improve people's lives through reducing the harm caused by alcohol. Since 2000 Alcohol Concern has delivered a variety of alcohol training and consultancy services to a range of clients including NHS organisations, local authorities and voluntary organisations.

Consultancy services are available to investigate and advise on measures to tackle alcohol-related harm, for example, by supporting local authorities in carrying out alcohol needs assessments, local alcohol impact studies and developing local alcohol strategies. We also offer training and consultancy on alcohol issues in the workplace.

Our training courses include: • *Alcohol Awareness* • *Alcohol Identification and Brief Advice (IBA)* • *Alcohol in the Workplace* • *Alcohol and Older People* • *Alcohol and Young People* • *Family and Parental Alcohol Misuse* • *Managing Drunken Behaviour* • *Working with Difficult to Engage Adults/Young People*

We offer these courses nationally, both as open courses or on an onsite basis. We would be happy to discuss any alcohol training needs you may have.

For more information please visit www.alcoholconcern.org.uk/ctu or contact the Consultancy and Training Team: consultancy@alcoholconcern.org.uk or 020 7566 9800

Consulting Circles

Consulting Circles
Skills training in Health & Social Care

At Consulting Circles we have more than 20 years' experience at a strategic and operational level of organisational development, third sector service delivery, contract management and workforce development. An OCN accredited training centre since 2010 we are one of the UK's leading providers of accredited ITEP practitioner training, and have trained more than 3,000 managerial, administration and delivery staff since 2007.

We are also market leaders in delivering associated products such as the supervision, coaching and support of recovery champions and the development of bespoke service evaluation systems. With two-day courses including Motivational Interviewing and Group Work Skills training, we will help you to deliver enhanced outcomes for your clients.

Is your service prepared for unannounced inspection by CQC?
Do you need help in preparing action plans for CQC after inspection?
Do you need help in registering new services with CQC?
Like help in understanding CQC's proposals for future inspections?

We have helped many services prepare successfully for registration and inspection and assisted others in addressing CQC concerns. We offer quality audits/"mock inspections", staff training and consultancy. Our reports have been used as evidence of quality monitoring for CQC. We have a unique experience of regulation in the treatment sector.

Emerging Horizons

Emerging Horizons is a specialist training, coaching and consultancy company serving the public health and social care sectors. We have a proven track record in delivering innovative recovery solutions, underpinned by a vigorous commitment to supporting the development of services that make a positive difference to people's lives. Founded in May 2011, Emerging Horizons has delivered training and support to some of the largest voluntary sector provider agencies in the UK as well as HM Prison Services, NHS Trusts and peer based recovery organisations.

Damian Grainer (MA, PGDip Couns.), who started work in 1999 as a peer mentor and advocate and has worked as a therapist and senior health & social care manager says: "EH has been set up to help organisations re-ignite the passion of their workforce supporting them to co-produce sustainable recovery with service users and local communities using the best in evidence-based practice."

Ray Jenkins (MBA), a former Director of a national social care provider and advisor on the government drug strategy, says: "We specifically started EH to support the reorientation of practitioners and the skills they need to develop interventions that encourage the self-management of recovery and empowers the development of vibrant recovery communities."

The Directors work with a team of highly skilled associates including counselling supervisors, mindfulness psychologists, medical clinicians and academics.

With courses ranging from Recovery Management, Mindfulness and wellbeing to Goal setting, positive risk management, Mi Mapping, groupwork and Mutual Aid Facilitation and an established track record in developing therapeutic resources and platforms for the delivery of recovery orientated solutions, we invite you to visit out more about about us working with your organisation.

We invite you to visit our website and find out more and find out more about us working with your organisation: www.emerginghorizons.org or email info@emerginghorizons.org

Mosaic

Established and trusted, nationwide – Founded in 1996, we have offices in London and Glasgow, and cover the whole of the UK.

Tailored and focused – We don't provide 'off the shelf' training. All of our courses are specifically constructed to

suit the precise needs of your staff teams.

Expertly delivered – Our training consultants don't just know the theory. Overwhelmingly they are current or recent practitioners in their fields.

Cost effective in these difficult times – Our training can work out at less than £40 per person per day.

SDS Ltd

The Skills Development Service Ltd
Provides training courses approved by The British Psychological Society Learning Centre

SDS Ltd is a national organisation delivering high-quality psychological skills training in health, social services, education and counselling for over 20 years. We provide training throughout the UK to between 6,000 and 10,000 delegates a year. All our courses are available as open courses or in-house training. All our courses have CPD hours attached.

SDS Ltd offers a wide range of training topics on CBT (including the Master Practitioner Diploma in CBT), Motivational Interviewing, Solution-Focused Therapy, Clinical Supervision, Group Work and many other subjects relevant to everyday practice.

SDS tutors are chosen firstly and mostly for their professional qualifications, practical knowledge, experience and excellent communication skills.

Our training is informed, evidence-based and very practically focused, with a wide range of learning techniques – live and video demonstrations, group and pair exercises etc – and always delivered in an engaging way which leads to excellent evaluation and delegate feedback.

Ring or email us for an informal chat about your needs, without any commitment.
